NEWBERRY CLUB WAS CHARTERED APRIL 13, 1920

How a 100-year old club reinvents itself during pandemic

BY CHRISTINA POMEROY

President

Rotary Club of Newberry

It's official! Rotary has been a part of the Newberry community for 100 years!

The Rotary Club of Newberry was officially chartered April 13, 1920. To commemorate the anniversary our club had been planning a grand centennial celebration; but, let me tell you, this was not the April celebration we had been planning for more than a year!

Our club has been working on community projects, researching our history, learning more about our club and realizing

our impact in our community. Then along came a virus. I'm sure each of you has your own Coronavirus story to tell. For the Rotary Club of Newberry, like many other clubs, it has been a daily reevaluation of expectations and priorities.

We are a biweekly lunchtime club of more than 75 members. We look forward to our regular meetings, board meetings, after-hours events and service projects. We like getting together and enjoy working together. So, not being allowed to gather in groups of more than 50... and then 10... and then 3 and then only family members. Well, it has been a bit

challenging!

PIVOT (piv-ot...a phase used in the TV show Friends)!

The Rotary Club of Newberry started meeting online the third week of March. At the time we were meeting regularly about the centennial celebration. But with the limits on capacity and then the closures, the club leveraged Zoom to make some quick decisions including postponing the celebration until

June.

As part of my job, I have accounts for both GoToMeeting and GoToWebinar. So, in April, we started using these tools to host our meetings.

THE 100-YEAR PIVOT AT THE ROTARY CLUB OF NEWBERRY

This new meeting format has allowed us to keep connected and to keep the club operating. Each meeting is better than the last as we realize how best to communicate using the new online tools for audio (over the computer or phones) along with web cameras.

We've found that GoToMeeting is a good tool for small groups (after hours, board meetings, committee meetings) as everyone who attends can immediately speak and be seen on camera (if desired).

But we decided to leverage GoToWebinar for our club meetings for a few reasons.

E-Club of the Carolinas recognizes MC Yarbrough as Rotarian of the Year

MC Yarbrough was named 2019-20 Rotarian of the Year by the E-Club of the Carolinas. Club president Mike Reid presented the award to MC for his outstanding service to the community, dedication to Rotary and for being the Chairman of the Rotary Foundation in the Eclub.

MC was “speechless.” which hard for MC! Congratulations to MC for decades of service to Rotary. MC and his wife Rita, a former assistant governor, live in Newberry.

Newberry using lunch money in community— (continued from page 1)

GoToWebinar allows us to post up a registration link and we can ask questions during registration to help prepare for the meeting.

We can make certain people “panelists” and their audio is automatically shared and can choose to be on camera, but the rest of the attendees are muted. This has allowed us to have a meeting format very similar to the regular meetings complete with programs and speakers.

The meeting software also tracks attendance and we can survey the members as they attend. The meetings are also recorded so folks that couldn’t make it to the live online meeting can catch up.

Not all of our members embrace technology quickly; but I’ve been very surprised with the number who have made the leap.

At our last meeting we had two members in attendance who normally were not able to attend. One is currently in Texas and another normally has conflicting commitments. So, yea for online meetings!

Pre-virus, we held our regular meetings over lunch and a portion of our dues cover the cost of the meal. Because we are now meeting virtually, the club is not incurring the expense of lunch. Thinking of how our club can support small businesses in our community and the community members themselves during this crisis, we discussed options with the club and decided to take this opportunity to create a service project. Pivot!

In our discussion, we decided to focus on helping the community in this time of crisis and leveraging the funds which were not being used for our club meetings to do good in our community. So far, we’ve taken two steps.

1 We are working with Living Hope Foundation. They are an established organization in Newberry designed to help lower income Newberrians. They have a food bank which needed to be resupplied so we’ve made a monetary donation to resupply the food bank and have started a food drive to help keep it stocked.

2 We realized our caterer would be impacted by the loss of revenue from our meetings going online instead of lunch meetings so we’ve purchased gift certificates from our caterer (they have a restaurant too), and we are giving the gift certificates to community members in need.

This time of crisis and uncertainty has caused us to reflect on our community involvement, our personal and club priorities, and our goals for the future. We’ll probably never go “back” to the “normal” we had, but I’m hopeful what becomes “normal” will be an even better world than we had before.

CONNECTIONS

An unforgettable spring

BY DG ROB HANLEY

Rotary Club of Greenville City Center

Hasn't this been an unforgettable spring?

Since early March our lives and Rotary clubs have been turned upside down and inside out by the novel corona virus, aka COVID-19. The past three weeks have seen severe storms wrack the northern tier of counties, from Oconee to Cherokee. The worst damage was done by an early Monday morning series for tornados that touched down in the Seneca area. Earlier this week a tornado briefly touched down near the North Pleasantburg Drive, Greenville County.

Rotarians are people of action and are prepared to respond.

The morning after tornados tore through Seneca, RC Seneca and RC Seneca Golder Corner members reached out to check on one another. Fortunately, no Rotarians were injured. Some lost power; some lost trees; some suffered damage. Within 48 hours Rotarians from Seneca and Clemson were mobilizing to help clear debris (coordinated with local officials, of course). Later that week the Rotary Club of Easley donated money for relief efforts. By the end of the week, other Rotary clubs were donating money and needed supplies. What an example of Rotarians taking action and serving.

By now most of District 7750's Rotary clubs are meeting on-line. Most are using the Zoom platform. If your club isn't meeting on-line, you should try it out at least once. If you haven't joined a Zoom meeting, I urge you to do so. I enjoy seeing smiling faces on my laptop screen, and listening to the joyful chatter. It's amazing that some members login from far away places like San Francisco or some balmy tropical island. I have also noticed that attendance seems to improve from one week to the next. More important, many clubs are following their regular meeting format by opening with an invocation and Pledge of Allegiance, sharing Happy Dollars, and having a keynote speaker.

One day I was able to attend breakfast meetings

YOUTH SERVICE MONTH

"We cannot talk about the future without talking about children. They are our future." - PRIP James L. Lacy 1998-99

Rotary

YOUTH

www.rotary.org

in Aiken and Simpsonville. Now that's travelling almost at the speed of light!

Area 4 has enjoyed the on-line format so much that they are going to have an on-line Health and Happiness event on May 4th.

Speaking of on-line events, the Council of Governors, which was scheduled to meet in Asheville on the 8th, is also going to meet on-line.

Several of our Rotary clubs continue to grow. I keep hearing of clubs that are inducting new members. If your club has members in the pipeline, make sure they are invited to your on-line meetings. Keeping connected with potential members may help them decide that your Rotary club is worth their time.

COVID-19 may push organizations like Rotary to a "new" normal. As Rotarians get used to on-line meetings Rotary International may move meetings and training assemblies from "terra" to on-line events. While some will miss the fellowship, others may take more interest in District, Zone and International events.

I encourage you to go to <https://www.rotary.org/en/rotary-clubs-help-fight-covid-19-pandemic> and see how Rotarians are making a difference. Then, I ask you to let other know what you and your Rotary club is doing to make a difference locally and globally.

Finally, like many of you I miss terra meetings. However, we are still in unsettled times when it comes to understanding COVID-19 and the actions we should take to protect ourselves, our families and our friends. For now, continue to help #stopthespread by maintaining social distancing and wearing appropriate personal protective equipment when you go out in public. Follow guidelines issued by federal and state health professionals. Most of all, stay connected with your Rotary family.

ROTARY MEMBERSHIP

Talk about flexibility...how to help your club adjust to the new normal

BY PDG ED IRICK

District 7750 Membership Chair 19 - 20

M: 864-420-1052

DG2017@Rotary7750.org

The Coronavirus has changed our world and presented new challenges to our lives.

Self-quarantine and social distancing in response to the Coronavirus have required most of our Rotary clubs to react and adapt to meet the needs of their members and continue to serve their communities. The one exception is our E-Club of the Carolinas that has always met as a virtual club.

It was not long ago that I had to drive into town to attend and enjoy my Rotary Club meeting. Now, about five minutes before the meeting begins, I plop down in front of the computer, hit a few keys and magically all my Rotary Club friends appear on the screen. It reminds me of watching Hollywood Squares. The difference is we conduct club business and have programs, in addition to, having fun and socializing. The only negative aspect for me is not being in the same room with my fellow Rotarians. I am sure most of you feel the same and, like me, look forward to meeting in person again.

When we do return to meeting together, we must be aware that things will not be the same. In a sense, it will be a new beginning or as some say a new normal. Clubs must be flexible and plan now to transition to the new normal.

How will you help your club leadership facilitate the transition?

Several things to consider are:

1. **WILL YOU HELP YOUR LEADERSHIP INCREASE MEMBERSHIP?** If your club has not been meeting virtually, you may find that several members have lost interest in Rotary due to lack of engagement or finding some other area of interest in which to become engaged. Attrition is real even in times of virtual meetings. Some familiar faces will not be there when you next meet in person. This could very well have a major impact on club projects and will shift the burden to others who may already have a key role in the club.
2. **WILL YOU HELP INCORPORATE CHANGE TO KEEP YOURSELF AND FELLOW CLUB MEMBERS ENGAGED IN ROTARY?** Recent community service projects in response to the virus or possibly recent natural disasters may cause a change in club service priorities and District Grants. This is a good opportunity to change from one area of focus to a new area of focus. Let your leadership know how you feel about the future of the club. It is incumbent upon you as a Rotarian to support your club leadership in making the changes necessary to extend Service Above Self into the future.
3. **WILL YOU COMMUNICATE YOUR DESIRES TO THE LEADERSHIP?** If you are not getting the Rotary experience you expected, let your leadership know. It is incumbent for the leadership to try its best to provide you with that experience or at least let you know why it cannot.

Let's all embrace change and do what needs to be done to strengthen our clubs as we transition to the new normal.

Greenwood and Emerald City's Rotary Has Heart community project ended up helping stranded Ugandan children's choir

The Emerald City and Greenwood Rotary clubs packed more than 500 food bags with snacks and nonperishable meal items, to be used in the community as part of its March Rotary Has Heart project.

But as the COVID-19 outbreak strengthened, a children's choir from Uganda traveling around the Southeast was unable to go back home and the children were sent to stay at Camp Fellowship, a conference center and ministry camp located on Lake Greenwood.

The Emerald City Rotary Club had food items left over from Rotary has Heart and decided to take action. Former Club President Jerry Rentz packed all the remaining food and took it to Camp Fellowship for the children to enjoy.

Lancaster Breakfast sponsors two blood drives since Covid crisis began

The Lancaster Breakfast Rotary Club has been busy since the COVID 19 crisis hit South Carolina hosting American Red Cross blood drives. They sponsored one on March 18 and one on April 15. The two drives netted 57 units of blood and will help to save many people! The Red Cross representatives were very grateful of Rotary's lead in recruiting donors as well as volunteers.

Lancaster Breakfast Rotary President Holly Furr was elated with the turnout to both of the drives. "The Lancaster area has been very generous with donating blood in this extreme time of uncertainty," Holly said. "We know the blood supply is at critically low levels so we knew the right thing to do was to host the drives. Many Rotarians donated their blood and time and for that we are incredibly thankful. We also had many first time donors,

Rotary volunteers Athena Ciulla, Sharon Novinger, and President-Elect Reggie Lowery. Rotary volunteers ran the canteens, welcomed people at check in, and prepared ice packs.

milestone donors, under the age of 25 donors, and donors who had planned to give at other drives but those were subsequently cancelled. Our donors, simply put, were very motivated to make a difference."

Interestingly, nearly 50% of the March blood drive donors were walk-ins. While that drive was held in the beginning of the crisis, protocol had required precautions of taking everyone's temperatures, wearing gloves, and sanitizing all surfaces.

At the April drive, no walk-ins were allowed due to social distancing and every volunteer, worker, and donor was required to

wear masks from when they walked in the door to when they left in addition to wearing gloves and taking everyone's temperatures.

The April 15th drive was originally to be hosted by the students of the University of South Carolina Lancaster; however, when all campuses were closed Lancaster Breakfast Rotary offered to find a place and host another drive. Luckily, First Presbyterian Church of Lancaster offered the much needed space.

"If you hear of a drive that has been cancelled, and if your club can help, please reach out to the American Red Cross and help them find a location that will host the drive," Holly said. "It truly can be a decision that is life-saving."

← President Holly Furr and Red Cross Account Representative Lindsey Lineberger.

HISTORIC EVENT AT PLEASANTBURG: ONLINE NEW MEMBER INDUCTION

The Rotary Club of Pleasantburg conducted its first online induction ceremony on April 16. James (JD) Whitt (red box) was welcomed into the club with all the pomp and circumstance that Zoom would allow. JD is a District Executive with the Blue Ridge Council, Boy Scouts of America.

Michelle Mawundura (blue box), our Youth Exchange student from Harare, Zimbabwe, also participated in the meeting. She is a student at Greenville Tech Charter High School. Michelle is enduring the confinement brought about by the closure of schools and the public health safety measures.

The speaker was Bob Grazio (orange box), club RYLA chair and District Interact Chair. Bob summarized the RYLA program and talked about the six students that Pleasantburg had planned to support at this year's Erskine College event.

Using polio infrastructure to help with Covid-19 response

BY PDG BARBARA SHAYEB-HELOU

D7750 Fellowships Chair

Rotary Club of the Foothills

On March 20th the World Health Organization and the Rotary International Board endorsed an agreement that would allow the use of Polio Eradication infrastructure resources (such as vehicles, personnel, and refrigeration) to be loaned for the Global Covid 19 response.

While this takes place, house to house polio immunization will be paused. And laboratory and personnel will be reassigned. Google the RAG for Polio Survivors and learn (poliosurvivors.org) more. How practical and resourceful Rotarians can be. Just when you thought that Polio was almost wiped out; Covid 19 popped up. Rotarians go with the flow.

The RAG for Food Plant Solutions tells that during this pandemic Rotarians need to eat healthy. (I

am trying to eat fresh vegetables every day.) They say that now more than ever we need to be able to feed our selves nutritious food. We now have a new normal. This may be an ideal time to assist a low-income neighborhood to start a "Victory Garden". Boost your immune system too: www.foodplantsolutions.org.

The RAG for Environmental Sustainability tells us to reduce our footprint. Research shows us that today we use 3 times more resources than in 1970. "Today's mighty oak is just yesterday's nut that held its' ground." Hold your ground and think twice before you use or take a resource that may not replenish itself.

The Rotary Action Group for Peace has a passion for a particular type of service and provides assistance and support for Rotary Clubs and Districts in planning and implementing service projects in their respective areas of expertise.
